Varieties of Espalier Fruit Trees

Season 1940-1941

APPLES

- ALEXANDER**—Large, red or crimson, flesh yellowish white, crisp, tender, with pleasant flavor. Tree hardy. October.
- ALLINGTON PEPPING**—A late medium large, striped yellow and red apple. Excellent for dessert. October.
- CUNNINGHAM**—Striped with red on yellow, very attractive, yellow-white flesh, fine-grained, pleasant, subacid. September-October.
- GRAVENSTEIN**—A large attractive orange-yellow apple overlaid with stripes of red. Early.
- ANANAS**—A late medium large golden yellow apple of fine flavor.
- CLEAR or YELLOW TRANSPARENT**—A very early medium large, pale yellow apple. Abundant bearer.
- KING DAVID**—A winter apple. Very large fruit, handsome yellow-green with bright red cheek. Excellent for dessert.
- SPITZENBERG**—Medium to large fruit, deep red, flesh yellow, crisp, sub-acid and highly flavored.
- JONATHAN**—Large fruit, deep red, covered with yellow patches. Tree very beautiful. A late apple.
- CANADA RENETTE**—Large lemon-yellow with red splashes. Flesh firm, rich, juicy and finely flavored. Good bearer. A late apple.
- MONTROSE**—A large apple, red striped, heavy bearer. November.
- RED DELICIOUS**—A red striped, long pointed apple of fine flavor and bouquet. October-November.
- GOLDEN DELICIOUS**—Golden yellow apple of the delicious variety.
- ROME BEAUTY**—Smooth round apple, looks like the Gravenstein but with more color. A fall apple, white meat of fine flavor.
- RED ASTRACHAN**—Early, red checked turning to all red. Excellent for dessert.
- GOLDEN RENETTE**—A late apple of large size with rich, golden yellow fruit.
- YORK IMPERIAL**—Large and handsome. One of the best. September-October.

PEARS

- PASTOREN**—A late pear with excellent fruit. Large, lemon-yellow, with soft blush. An excellent keeper, fine-grained and juicy.
- TONGERN**—Large, golden brown dotted with soft red of extraordinary beauty. Fruit ripens in early fall and is juicy and highly flavored.
- JULY RAINBOW**—An early delicious pear ripening in July.
- GELLERT BUTTER PEAR**—An early fall pear, large lemon-yellow over-spread with cinnamon russet. Very juicy and sweet.
- WILLIAM'S BUTTER PEAR**—Similar to the Bartlett. Large fine fruit but without the musky flavor of the Bartlett. Rich yellow with faint blush on exposed cheek. Delicious flavor. Early fall.
- CLAPPS DARLING**—Large fruit. Pale lemon-yellow with brown dots. Fine texture, juicy with a rich vinous flavor. Early fall. August, September.
- TREVOUX**—A large lemon-yellow early pear.
- ST. MARY BUTTER PEAR**—Large fruit, yellow with red cheek.
- CLAIRGEAN**—Very large, pyriform, yellow and red. Highly flavored. Tree very good grower, early and abundant bearer.
- SUPERFINE**—Large winter pear. Fruit of rich russet color. Flesh juicy and rich. November.
- SECKEL**—Small, rich yellowish-brown. One of the finest and highest flavored pears known. September-October.
- ST. MARY'S BUTTER PEAR**—Large green-yellow fruit, with dull red cheeks. September-October.

CHERRIES

- OSTHEIMER WEICHSEL**—A hardy cherry. Fruit large, skin deep red turning to dark red at maturity. Classed as a sour cherry, it is much sweeter and juicier than the ordinary pie cherry. Unsurpassed for jam, jelly or pie. Will not split in rainy weather. July.
- BOHEMIAN**—Large fine fruit, deep blood-red. Sweet and juicy. Early.
- BULGARIAN**—Fruit large, dark red color. Rich flavor. Sweet. Late.
- LAMBERT**—Very large fruit, dark-red. Flavor sweet, or very mild sub-acid, aromatic, rich.

PLUMS AND PRUNES

- SATSUMA**—Large dark red fruit, fine flavor, red flesh, with remarkable small stone. August.
- FOREST ROSE**—Large round fruit. Beautiful dark red. August.
- REINE CLAUDE**—Large delicious fruit. Dark purple. August.
- KIRKE**—Large, crimson-violet. Rich flavor. August.
- ITALIAN PRUNE**—A fine late prune. Oval, purple fruit. Juicy and very productive. Delicious. September.
- FRENCH NOBLE**—Dark red fruit. Rich tender flavor. Midsummer.
- EGG PLUM**—A large, beautiful egg-shaped yellow plum. Excellent for cooking. Tree a free grower and very productive. August.
- BULGARIAN**—Fruit very large, dark red, juicy and sweet. Hardy and productive. September.
- BELLE LOUVAIN**—An excellent plum, large, blue-red, juicy and sweet. August-September.

PEACHES

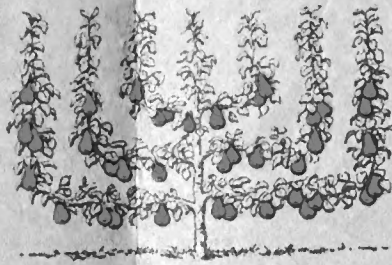

- ALEXANDER**—Medium size, skin greenish white, nearly covered with rich red. Flesh melting, juicy and sweet. Freestone. August-September.
- ELBERTA**—Flesh yellow, with red cheek, melting and juicy, rich excellent flavor. Freestone. August.
- EARLY BEAUTY**—A very highly flavored colored peach. Remarkable for its firmness. Large fruit. Early.
- HALE EARLY**—Large fruit, rich yellow with red cheeks. First quality. Tree healthy, good grower. Early.
- LADY SUSANNE**—Large white peach with pink cheek. Delicious flavor. Freestone. August-September.
- LATE CRAWFORD**—Fruit large, skin yellow, dull red cheeks. Flesh yellow. One of the finest late peach.
- ROCHESTER**—Skin greenish white, covered with rich red. Flesh melting, juicy and sweet. Vigorous and productive. Early.
- VERMONT**—Fruit yellow with red cheek. Very juicy and sweet. Flesh yellow. Freestone. August-September.
- VIRGIN**—Large yellow and red fruit. Delicious melting flavor. One of the best early peaches.

APRICOTS

- MOORPARK**—One of the largest. Orange with red cheek. Firm, juicy and rich flavor. Very productive. August.
- TILTON**—New. Its large size, rich apricot color, high flavor, uniform ripening, sure and unusual productivity with frost resisting qualities, and vigorous growth easily place it well in advance of all varieties.
- LOUIS**—Tree hardy and prolific. Fruit medium large, white, sweet and melting. A handsome and valuable variety. July-August.

Gentlemen:

~~We~~ hope we will not appear boastful when we say, "We believe we have the finest stock of espalier fruit trees ~~that~~ can be found anywhere". Our sales help convince us that this is true. They show a material increase over the previous season, which was the best we have ever had.

This season we are offering a larger stock than we have ever grown before and we have lowered the prices, in spite of the increased cost of most everything that enters into the production of espalier fruit trees.

NOW is the time to make your selection of varieties, from enclosed list, and place your order with us. We will do everything we possibly can to send you such trees, as we would want to use in our own garden or orchard. Planting season begins about November 1. and will last till about April 1.

We invite you to come and see our nurseries and make your own selection, but if you cannot come, send your order and leave it to us, to serve you. We know you will be pleased with the stock we send you.

Very sincerely yours
U. S. ESPALIER NURSERY CO. Inc.

H. E. Napier
